

AERB Formation day celebrations.

AERB staff along with their family members celebrated the 43rd Formation day of AERB on November 17, 2025 with zest and fervour in the newly inaugurated Niyamak Bhavan-C building. A beautiful Rangoli commemorating 150 years of Vandemataram and an interesting line-up of AERB related exhibits greeted the visitors. The visitor list included family members of AERB staff and various dignitaries of Department of Atomic Energy. There were both Technical and Cultural programs that earmarked the day. The Technical program comprised of a presentation on AERB milestones and future plans, followed by a motivational talk by the Guest Speaker Shri Sudeep Verma. Chairman, AERB in his inspiring speech expressed that AERBites should forge future ideas with increased confidence on the solid foundations built thus far.

Through exhibits and models, developed in AERB, AERBites explained basic radiation safety principles to family members in a fun and interesting manner. The cultural evening was marked with delightful performances by children of AERB staff. The highlight of the programme was a skit on Radiation safety awareness performed by AERBites.
