

AERB participated in '108th Indian Science Congress – Pride of India Expo 2023'

Atomic Energy Regulatory Board (AERB) participated in 108th Indian Science Congress (ISC) held at Rashtrasant Tukdoji Maharaj Nagpur University, Nagpur, Maharashtra from January 3 -7, 2023. Shri Narendra Modi, the Prime Minister of India virtually inaugurated and addressed the Indian Science Congress. Theme of the event was 'Science and Technology for Sustainable Development with Women Empowerment'. One of the major attractions of ISC was Pride of India (PoI) Expo wherein organisations from government, public, autonomous sector, etc. showcased their achievements and innovations in science, technology and services.

AERB had setup an exhibition stall (Stall No. D-41) in PoI expo displaying various exhibits on its regulatory framework and functions in ensuring radiation safety in nuclear and radiation facilities. Students and faculty members from universities & schools, professionals from healthcare, environment & industry, civic service authorities and general public visited AERB exhibition stall in large number and interacted with AERB officials with several queries and discussed on safety in nuclear and radiation technology for welfare of the people.
